NEW INDUSTRIES FOR PAST WEEK

Industrial Development in South
Continues on a Gigantic
Scale.

Chattanooga, Tenn., Aug. 25.—The
week ending Wednesday shows con-
tinued activity in the industrial devel-
opment of the Southern states, ac-
cording to the record of the week as
authorized by The Tradesman. In
amount of capitalization the million
dollar mark was reached by two com-
panies—a machine company in St.
Louis and a mill company in Okla-
homa. A number of industries are on
the list with capital of from \$250,000
to \$500,000, while those with \$50,000
and upward are numerous. Studying
the list carefully it will be observed
that the West Virginia coal fields are
being exploited with more than usual
zeal, there being several new com-
panies in that line added during the
week. Missouri shows well in the list
with a wonderful diversity of heavily
capitalized new industries. Railroad
shops, estimated to cost \$400,000,
swell the week's record for Georgia.
Cotton gins and mills are reported
from several of the cotton states, and
a number of new power and electric
plants are also noted. New canning
factories are among the new concerns
reported from Tennessee and Virginia.
Altogether The Tradesman's list of
new industries for the week, which
follows, makes a splendid showing for
the mid-summer activity of the south:
